Webinar Course Descriptions

**Topic:** Ethics - Walking a Straight Line
**Instructor:** Keith Wilts, CPCU, CIC
**Date:** January 16
**Time:** 12 PM - 3 PM

Examine insurance statutes and regulations that apply to an agent's legal and ethical responsibility to an insured, claimant, insurer, and other agents. Analyze the potential conflict of interest that exists in the agent-consumer transaction. This conflict is complicated by a system in which agents are encouraged to provide needs analysis and risk management services to clients; however, his or her compensation or reward system is sales, not service. Identify ways in which an agent's or insurance company's potential legal liability is changed by insurance laws, society's perspective of responsibility during the insurance transaction, and court interpretations.

**Topic:** Ethics and Agent Liability
**Instructor:** Paul Burkett, J.D., CPCU, CIC
**Date:** March 19
**Time:** 12 PM - 3 PM

Learn how proper procedures and documentation can be used to prevent or reduce unethical behavior or errors and omissions (E&O) claims. Discuss agent duties to the insurance company under the law of agency, duties to the client under "dual agency," and responsibilities to others who may be relying upon your insured's insurance protection, such as mortgage holders, family members, loss payees, and lessors. Examine agency procedures such as the account review process, coverage surveys and summaries, applications, binders, policy cancellation and non-renewal, certificates of insurance, and record retention.

**Topic:** Ethics and the Law
**Instructor:** Keith Wilts, CPCU, CIC
**Date:** December 17
**Time:** 12 PM - 3 PM

Building on the experience of individual participants, this class develops the concepts of ethical behavior, dealing with conflicts of interest, and applying a systematic evaluation process to real ethics issues in the news. Real world case studies will challenge the participant to think about the ethical decision-making process. Know the questions that need to be considered when trying to make an ethical decision. Understand the need to use individual judgment and reasoning.

**Topic:** Farm Liability Coverages
**Instructor:** Keith Wilts, CPCU, CIC
**Date:** March 11
**Time:** 8 AM - 11 AM

This course provides a detailed overview and analysis of the liability exposures faced by farmers and a thorough understanding of the various insurance products that can be used in arranging an insurance program on their behalf. Participants will examine the most common farm liability coverage forms and endorsements available in the marketplace, including a study of coverage provided as well as exclusions, commonly used endorsements, policy conditions, and miscellaneous provisions. The course will review vehicle (autos, mobile equipment, recreational vehicles) exposures faced by farmers and exploring the coverages available under various standard insurance policies.

**Topic:** Farm Property Coverages
**Instructor:** Keith Wilts, CPCU, CIC
**Date:** April 6
**Time:** 12 PM - 3 PM

This course covers the topic of farm property policies, which are designed to provide insurance on existing buildings and their contents. Tractors, combines, livestock, and other items all found on an insured farm may also move around on and off the farm premises and an overview of equipment breakdown, mobile agricultural machinery and equipment, and livestock exposures faced by farms. These exposures are treated through property insurance forms or endorsements, inland marine products, or a combination of both.

**Topic:** Farm Vehicle and Equipment Coverages
**Instructor:** Keith Wilts, CPCU, CIC
**Date:** May 5
**Time:** 12 PM - 3 PM

Fleet diversity, cutting-edge technology, and unique property and liability hazards pose many insurance challenges. Each state has exemptions to auto laws or regulations that represent a collection of safe harbors, or defenses, from potential liability that would otherwise apply, such as when farm vehicles and farm machinery are being operated on public roads. A Farm Liability policy typically only provides coverage for defense and damages arising out of the use of farm vehicles and farm equipment while being used for “farming.” Evaluate the Personal Auto, Business Auto, Farm Liability, and Mobile Equipment Coverage forms to identify when a client needs to modify coverage.

### Income After Retirement - Where Does the Money Come From?

**Instructor:** Ross Pearce, CLU, ChFC, CIC  
**Date:** December 11  
**Time (Central):** 8 AM - 11 AM  
**CE Credits:** 3 Life hours  

People in the United States are living longer today than ever before. They want to enjoy life, travel, hobbies, and their families not only during their working careers, and also once they’ve retired. Their money needs to be sufficient to allow them to pursue these activities, as well as face the health consequences of getting older. The amount of money needed to address these issues needs to last much longer than it did in previous years. That requires careful preparation. In this course, we will discuss that preparation, and investigate the history and future of retirement planning.

### The Insured, Additional Insured vs. Named Insured Debate

**Instructor:** Keith Wilts, CPCU, CIC  
**Date:** March 16  
**Time (Central):** 12 PM - 3 PM  
**CE Credits:** 3 P&C hours  

The individuals and entities who are afforded protection under a commercial liability policy are to be divided into three general groups: Insured, Additional Insured, or Named Insureds. The decision of whom to name on the policies declaration page is one of the most significant factors that determines the extent of protection for each insured. Discover how factors such as ownership (sole proprietorship, limited liability company, trust, corporation, partnership, etc.), products sold or work performed (service, retail, manufacturing clients), and even an insured's business, growth and perpetuation plans can influence the named insured description.

### Insuring Hobby and Small Farms

**Instructor:** Keith Wilts, CPCU, CIC  
**Date:** December 10  
**Time (Central):** 8 AM - 11 AM  
**CE Credits:** 3 P&C hours

**Instructor:** Keith Wilts, CPCU, CIC  
**Date:** March 23  
**Time (Central):** 12 PM - 3 PM  
**CE Credits:** 3 P&C hours

The key distinguisher for hobby farming is that it is a not-for-profit motive, even though a profit may be realized. Hobby farming is pursued primarily for pleasure or recreation. Loss exposures, including farm equipment, farm buildings, animals or livestock, farmworkers, and operation of a road-side stand or participation in farmer’s markets clearly create the need for farm owner policies vs. relying on homeowner’s insurance. Farm owner’s Property and Liability coverages will be discussed and applied to the real-life case or claims examples. Automobile coverage will also be reviewed to address the related farm vehicle and off premises exposures.

### Insuring Toys and Collectibles

**Instructor:** Keith Wilts, CPCU, CIC  
**Date:** February 6  
**Time (Central):** 8 AM - 11 AM  
**CE Credits:** 3 P&C hours

Unless you collect the same item or have an interest in the same hobby as an insured, you may be asked to insure items about which you have little first-hand knowledge. Every homeowners’ policy has limitations that apply to certain classes of personal property and liability arising out of activities in which an insured may be involved. Examine the difference in valuation methods based on Actual Cash Value, Replacement Cost, and Agreed Value. Evaluate significant differences in the level of protection for owned versus non-owned motorized “toys” under a homeowners’ policy. Examine how a personal umbrella policy can help fill in the potential coverage gaps.

### Insuring Trusts - Protecting Your Client’s Wishes

**Instructor:** Paul Burkett, J.D., CPCU, CIC

**Instructor:** Paul Burkett, J.D., CPCU, CIC  
**Date:** April 23  
**Time (Central):** 12 PM - 3 PM  
**CE Credits:** 3 P&C hours

The use of trusts is becoming the standard practice for individuals and households who hold any appreciable assets. The principal attraction of trusts is that they allow property to be passed down to heirs or transferred to others more quickly and at less cost than a will. Under a trust agreement, assets can pass immediately from the grantor (or donor or settlor) to the beneficiaries without having to go through the cost and public disclosure of probate. This course is designed to provide participants with an understanding of the insurance implications that exist for clients who have established a trust. Review trust terminology, types of trusts, parties involved, and resultant property and liability loss exposures. Commercial and personal lines coverage options will be examined, along with case examples regarding how each can address property and liability needs.

The average modern-day family is not what it once was. Some studies indicate that as recently as 1985, the “traditional family,” which consists of mom, dad, and children, made up about 47% of all households. Today that number is closer to 21%. While family dynamics in the United States have changed, personal lines insurance policies haven't necessarily kept pace with those changes. This seminar will examine challenges posed when insuring Tiny Houses; criteria used to determine when an individual qualifies as a named insured, family member, or automatic insured; business use and home-sharing activities; Aircraft (including drones); E-Scooters; special event exposures; and personal injury (libel, slander, invasion of privacy) vulnerabilities.

As Dorothy once lamented in the Wizard of Oz, “We’re not in Kansas anymore!” While that comment doesn’t have anything to do with Personal Automobile Insurance Policies, it does reflect the fact that life as we knew it has changed! This class is designed to look at the changes that have occurred regarding how we get from one location to another and how we use our automobiles. We will explore how the personal auto insurance industry is dealing with these issues, examine what endorsements are available to provide coverage, and if these endorsements alone are sufficient to protect our customers adequately. How do Uber, Lyft and other auto transportation networks fit into the mix? What is an “auto-sharing program,” and how does the personal auto policy respond to this?
