RE: Nebraska 2018 Legislative Session, Week ending April 20, 2018

WEEK IN REVIEW

On April 18th, the Legislature adjourned *Sine Die* (without return). During the 2017-2018 sessions, IIAN took positions on or monitored 45 bills impacting the insurance industry. Of the six bills IIAN supported, four were passed (LB's 231, 241, 486, and 743), one passed which IIAN opposed (LB 299), and IIAN was instrumental in making substantial improvements to another (LB 1012). Any bills not passed this year died with the end of the session on April 18, 2018 (see IIAN 2018 Bills of Interest below for a complete list).

Following are major bills impacting insurance that passed:

LB486 Kolterman (IIAN Supported) "Change continuing education requirements for insurance licensees" (Carried Over From 2017)

LB 486 will allow up to 6 CEUs (out of 24 every 2 years in Nebraska) for "active participation in a professional insurance association"- by attending a formal meeting of the association; active service on a board or committee; or participation in industry, regulatory, or legislative meetings. IIAN will be working with the Nebraska Insurance Department as rules are developed for implementation of the new law.

LB743 Lindstrom (IIAN Supported) "Adopt the Public Adjusters Licensing Act and change continuing education and pre-licensing education provisions" ([Insurance Dept. Bill](#)).

LB 743 adopts the Public Adjusters Licensing Act, eliminates the pre-licensing education requirement for insurance producers, and requires course providers to file for re-approval of approved continuing education courses every four years. It was also amended to include provisions from **LB 220**, the Insured Homeowners Protection Act, regarding assignment of rights to a contractor following a loss. IIAN leaders met with Insurance Department officials last November to provide input on the provisions of LB 743, and testified in support at the bill's hearing. [Click here](#) for more details.

LB799 Kolterman "Modify deadlines and sanctions in the Surplus Lines Insurance Act" ([Insurance Department Bill](#)) – [read Statement of Intent](#).

LB815 Schumacher “Provide regulatory authority regarding reinsurance” ([Insurance Department Bill](#)) - [read Statement of Intent](#).

LB1012 Harr “Authorize self-service storage facility operator insurance producer licenses”
The bill would exempt owners of self-storage units from having to qualify as a licensed producer in order to sell insurance on their customers' property while it is stored or in transit; instead it provides for a "limited license". IIAN worked with the Department of Insurance and Senator Burke Harr, the bill's sponsor, on an amendment to include more stringent education requirements and consumer protections. [Click here](#) for final version of the bill.

LB989 Wishart IIAN--Monitor Authorize testing of autonomous vehicles by a city of the primary class on its roadways

Authorizes the operation of an autonomous vehicle on all state roads and highways, as long as the vehicle is capable of operating in compliance with traffic and motor vehicle safety laws. [Click here](#) for more details.

LB299 Ebke (**IIAN Opposed**) “Adopt the Occupational Board Reform Act and change procedures for rules and regulations” (Carried Over From 2017)
In an unexpected development, on March 14 LB 299 was advanced 33-0 on General File (first round of voting). IIAN worked closely with the Department of Insurance on improving this bill between General and Select File; however, the resulting amendment did not improve the bill from IIAN's perspective. The new law could jeopardize the insurance producer license law and regulation in the future, because for most professions, it directs Unicameral committees to analyze every five years, whether a regulation uses the least restrictive method that “is necessary to protect consumers from undue risk of present, significant and substantiated harms that clearly threaten or endanger the health, safety or welfare of the public when competition alone is not sufficient and which is consistent with the public interest”, and to submit recommendations on whether regulations should be ended or modified. Senator Ebke has also introduced an Interim study to identify the lawful occupations and the occupational regulations which are subject to the Occupational Board Reform Act and to prepare for implementation of the act. Workers' Compensation Bills

LB953 Albrecht “Change provisions relating to lump-sum settlements under the Nebraska Workers' Compensation Act”

LB 953 requires the Workers' Compensation Court to approve a lump-sum settlement in cases when the employee is eligible for Medicare, is a Medicare beneficiary or has a reasonable expectation of becoming eligible for Medicare within 30 months of the time of settlement. An amendment added provisions from LB784 “Change the Employee Classification Act to prohibit contractors with unpaid fines from contracting with the state or political subdivisions”. [Click here](#) for more details.

LB957 Lowe “Provide procedures for choosing a method of payment for payments under the Nebraska Workers' Compensation Act”

Under the bill – if agreed to by the employer, workers' compensation insurer or risk management pool and the employee or other person entitled to compensation – a payment could be made by direct deposit, prepaid card, or similar electronic payment system. Died With End of Session:

LB1015 Briese “Allow withholding from public of reports of injury under the Nebraska Workers’ Compensation Act that reveal an employee’s identity” - failed to advance from General File, after Sen. Chambers’ motion to bracket failed. The Speaker did not schedule LB1015 for further for debate, and LB 1015 died with the end of the session. There is no Interim Study Legislative Resolution scheduled for this topic.

LB553 Lowe “Provide for a nonelection of coverage under the Nebraska Workers’ Compensation Act” (Carried Over From 2017)

IIAN developed LB 553 last year, to address the continuing problem of independent contractors who do not insure themselves for workers' compensation. IIAN developed a compromise amendment to address specific concerns expressed by insurance company groups; however, they would not drop their opposition, nor offer alternative amendment language that would be acceptable to them. Due largely to the bill’s fiscal note (cost to create an online non-election registry), LB 553 was not advanced by the Business & Labor Committee for floor debate. During the session, IIAN met with Labor Department Director John Albin and his staff to discuss Workers’ Compensation issues related to LB 553, and the Director expressed interest in the idea of adding fields to the existing Labor Department website for contractor registration, that would deal with individual independent contractors’ Workers’ Compensation insurance status.

A total of 224 ISRs were introduced in the current session. We will be monitoring the following Interim Studies of interest to IIAN – they won’t begin in earnest until late summer and early fall.

1/9/2018 Bill introduced

1/26/2018 **NOTICE OF HEARING FOR 2/5/201**

The burial expense would increase from the current maximum amount of \$10,000, to an amount not exceeding fourteen times the state average weekly wage. (As of January 1, 2018, the state average weekly wage was \$831, so the maximum burial expense under LB928 would be increased to \$11,634.) The bill also provides that if there is no spouse, child, or other dependent entitled to benefits, the personal representative of the estate of the deceased would receive \$25,000.

The bill would require the Workers' Compensation Court to approve a lump-sum settlement in cases in which the employee at the time of settlement was eligible for Medicare, was a Medicare beneficiary, or had a reasonable expectation of becoming eligible for Medicare within 30 months; or if medical, surgical, or hospital expenses incurred for treatment of the injury would not be fully paid

as part of the settlement, if the employee's attorney affirms that the settlement is in conformity with the compensation schedule and for the best interests of the employee or his or her dependents, under all the circumstances. LB953 would also address a recent court decision regarding the enforceability of late payment penalties – making the entry of an order of dismissal a prerequisite to the discharge of a defendant from liability.

Would provide that reports of injury under the Nebraska Workers' Compensation Act that reveal the identity of the employee who is the subject of the report are not public records. Currently, 37 other states currently have laws similar to the concepts contained in the bill

2017 SESSION WRAP-UP

IIAN took positions on or monitored 28 bills affecting the insurance industry last year. Of the five bills IIAN supported, two were passed, and three were held over to the 2018 "short session".

Three Insurance Department bills passed:

LB 137 to adopt the Unclaimed Life Insurance Benefits Act;

LB 231 to authorize disciplinary action under the Insurance Producers Licensing Act for failing to maintain a license in good standing (**IIAN supported**);

LB 241 to provide an exception to the annual privacy notice requirement under the Privacy of Insurance Consumer Information Act (**IIAN supported**). Provides an exception to the requirement that licensees of the Department are to provide an annual privacy statement. Current Nebraska law requires licensees to provide annual privacy notices and closely follows the federal Gramm-Leach-Bliley Act. However, in late 2015 Congress amended Gramm-Leach-Bliley to provide an exception to the annual notice requirement if a company provides personal information with non-affiliated third parties only as outlined in law and has not changed its policies disclosed in the most recent disclosure to the consumer.

LB241 amends Nebraska law to relax the annual disclosure requirement if the licensee meets the criteria outlined in the Gramm-Leach-Bliley Act.

Also passed: **LB 406**, which amends certain statutes to provide that certain notices (for automobile liability policies) of cancellation or nonrenewal may be mailed by first-class mail using intelligent mail barcode or similar tracking method, in addition to registered or certified mail.

2017 BILLS OF INTEREST – HELD OVER TO 2018 SESSION

The following bills were held over for the 2018 “short session.

[LB553](#) was heard by the Business and Labor Committee on **February 27, 2017**. IIAN members **Andy Bassett** and **Tom Champoux** testified in **support**.

Insurance industry associations PCI and AIA testified in opposition, along with the Nebraska Trial Attorneys.

Would require an individual employer, partner, limited liability company member, or self-employed person who is actually engaged in his/her business and does not elect to bring himself or herself under the Workers’ Compensation Act, including an individual independent contractor, who does not insure him/herself for workers’ compensation, to acknowledge to the Workers’ Compensation Court that he/she is not electing to be covered under the Nebraska Workers’ Compensation Act. The individual would not be entitled to any benefits under a workers’ compensation policy. The individual could elect to be covered under the Act at any time by submitting a request to the Workers’ Compensation Court to remove their non-election of coverage, or purchasing a valid workers’ compensation policy that includes her/him for coverage. LB553 would bring more clarity to the workers’ compensation insurance market. It will create a more certain legal status for these individual employers and independent contractors in relation to workers’ compensation benefits. In addition, it will allow them to decide whether or not to secure workers’ compensation coverage in the future.

LB643 would increase minimum limits to \$50,000 per person and \$100,000 per occurrence for bodily injury and \$50,000 for property damage. LB 486 would allow up to 6 CEUs (out of 24 every 2 years in Nebraska) for "active participation in a professional insurance association" - by attending formal meetings of the association; active service on a board or committee; or participation in industry, regulatory, or legislative meetings.
