Dear Friend,

As you may know, IIAN and the IIAN Foundation are working together to build a Talent Network pipeline to connect Nebraska college students and beyond with jobs and opportunities in the independent agency system. Over the last several months we have been working to educate the public, college professionals and students. We have had success with job placements, relationship growth in colleges and lots of interest! Last year, the tournament raised a record of \$22,000 for the Talent Network Program...but there is more to do and we need YOUR support!

• **The Challenge**

95% of the current population entering the work force think insurance is “boring”. Statistics also show that 600 million people will exit the workforce by 2025 and only 400 million people will enter.

• **The Impact**

Beyond supporting successful careers and protecting the financial security of our neighbors, the insurance industry adds over \$10 billion to the Nebraska economy each year. In fact, insurance is one of our state’s leading export products. Perpetuation is key to continued growth!

• **The Opportunity**

We’re calling on current leaders like you, who have built successful careers in the industry, to join the effort. With your help, we can offer competitive education and scholarship opportunities, so your future employees, colleagues and successors are the best they can be.

Our tournament goal this year is to raise \$25,000 for scholarships, internships and recruitment. With your continued support we are positive we will once again meet our goal. Over the next few months, IIAN Foundation Board members will be reaching out to visit with members about our goals. Our success is your success.

Ready to “tee up?”

Talk soon,
The IIAN Foundation Board
